

Event Photography With a Click

We are a family business specialising in event photography. On the one hand, the guests benefit from our friendly service and unique approach to photography while on the other the organisers find us convenient, reliable and independent. Just show us in and we will take it from there.

Our specialty is the on-location digital lab, which enables us to print photos minutes after they are taken - ideal for corporate functions, charity fairs, shows, receptions, club meetings etc.

It works like this:

- Prior to the event we set up "Click n Print", our state-of-the-art digital photo lab. All we require is a two metre long space, under cover and close to a power point.
- During the event pictures are taken and uploaded into the lab computers regularly. All displayed pictures are as they were taken.
- Within minutes guests can view their photos using the touch screen kiosk, select the ones they want, order and get them printed on the spot. Typical sizes are A5 (5"x7") and A4 (8"x12").
- Our user-friendly interface makes it easy for guests, even those with little experience in computer use, to view and select pictures. Moreover, our representative is across the table, ready to assist.
- Our equipment is professional and of the highest quality, to ensure true photo-quality pictures. This includes the cameras, the printers, the computers and software.
- Moreover, our staff are not just there to push buttons. All members of the team are experts in their field: the photographers and our experienced lab technicians right through to the sales representatives.

Our versatile photographers are experts in many types of photography and will produce amazing results whether the photo is posed or unposed, in a studio or outside, on our provided backdrops or on yours. They even take brilliant photos of animals!

For corporate functions and receptions the easiest, simplest and most affordable option is bulk, pre-paid, quantity-capped deals. This option makes the event stress-free for guests which, from our experience, enhances the sense of fun for everyone.

Added bonuses:

- When taking studio photos, we can apply any background to the photo. Clients and organisers can choose from prepared backgrounds, which can include the organiser's or event's logo, a short message, a picture of choice or a background from our collection.
- We offer an "old style camera" studio, using a real antique camera (modified to produce digital images), where our photographer, in proper attire, photographs portraits that are instantly uploaded onto our computer system. Selected pictures are then printed as is, made into old-style sepia or enhanced with digital backgrounds. This feature requires a larger space - about 6x6 metres. We bring all the necessary equipment with us.
